The fan game Pokemon HOF was founded in February 2008 by Hall of Famer, who is also the founder of this website. Hall of Famer had been working on his game all alone for nearly four months until the first staff member, Moose, agreed to join the project. It has now expanded to a team with more than 10 staff members, which is a strong sign that it's going to be a successful fan game. Please check the new releases this summer, you won't be disappointed!
